LinkedIn

PROFESSIONAL SUMMARY

- **Web Development & Engineering:** Proficient in Front-End and Full-Stack development using C++, JavaScript, React, Tailwind CSS, Bootstrap, and .NET to build responsive, modern web applications.

- **Practical Training & Experience:** Hands-on experience developing end-to-end web solutions and e-commerce platforms through intensive engineering training programs at ITI and DEPI.

- **Problem Solving & Core CS:** Strong background in core Computer Science principles, Data Structures, and algorithmic problem-solving with a focus on writing clean, optimized code.

EDUCATION

Bachelor's Degree in Computer Science — **June 2028**
Faculty of Computers and Information, Suez Canal University

- Relevant Coursework: Data Structures, Object-Oriented Programming (OOP), Programming Fundamentals, Networking Basics, Design and Analysis of Algorithms.

EXPERIENCE

Front-End Web Development Intern — ITI (Information Technology Institute)

- **Developed** responsive and interactive user interfaces using HTML5, CSS3, JavaScript (ES6+), and React.
- **Utilized** Tailwind CSS and Bootstrap frameworks to design mobile-first web pages efficiently.
- **Applied** component-based architecture and state management in React to enhance frontend modularity.

Full-Stack .NET Developer Trainee — DEPI (Digital Egypt Pioneers Initiative)

- **Learned** full-stack development concepts utilizing the .NET framework for scalable web applications.
- **Designed** and implemented structured backend database schemas and backend APIs integrated with web frontends.
- **Collaborated** on building end-to-end web applications following clean architecture principles.

PROJECTS

Chérie Care (E-commerce Store) | *Shopify*

- **Built and launched** a professional beauty and skincare e-commerce store using Shopify.
- **Managed** end-to-end store setup, customized visual layouts, and structured product collections for an optimized user experience.

Journey To Space (Web Interface) | *HTML, CSS, JavaScript*

- **Designed and developed** a responsive front-end interface for a space-themed web application.
- **Created** structured web layouts, navigation menus, and clean UI components following modern web standards.

Data Compression GUI Application | *MATLAB, App Designer*

- **Engineered** a Graphical User Interface (GUI) to visualize and test data compression algorithms.
- **Implemented** Huffman and Arithmetic coding logic to execute efficient compression and decompression workflows.

Competitive Programming & Problem Solving | *C++*

- **Solved** complex algorithmic problems on Codeforces to strengthen problem-solving speed and logic.
- **Leveraged** core Data Structures and Object-Oriented Programming (OOP) to write optimized code.

SKILLS

- **Web Development:** HTML5, CSS3, JavaScript (ES6+), React, Tailwind CSS, Bootstrap, Full-Stack .NET Framework.
- **Programming Languages:** C++, Python, Java, C#, SQL, MATLAB.
- **Core Concepts:** Data Structures, Algorithms, Object-Oriented Programming (OOP), Computer Networking Basics.
- **Platforms & Tools:** Shopify, MATLAB App Designer, Git/GitHub.
- **Soft Skills:** Analytical Thinking, Problem Solving, Logical Reasoning, Continuous Self-Learning.

CERTIFICATIONS & TRAINING

- **Front-End Web Development Internship** — Information Technology Institute (ITI)
- **Full-Stack .NET Track** — Digital Egypt Pioneers Initiative (DEPI)
